

Virtual Piano Lessons

Easy setup, login and join me for an online lesson in the comfort of your home. Schedule times that best suit your lifestyle.

Private in Studio Piano Lessons

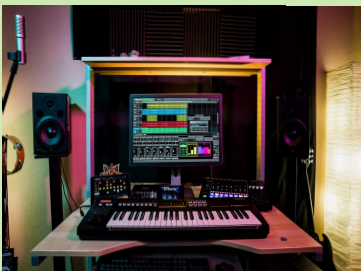

Learn how to take out a tune in free jazz improvisation or opt for the more traditional Classical Conservatory program.

Key-tar Lessons

I use the Key-tar like a jazz guitar. It can be an electronic piano, synthesizer or any virtual instrument you want it to be.

As a keyboard controller it will trigger clips, load instrument patches, bend and modulate sound.

Electronic Music Production

Create songs, make beats and explore dance club styles. Learn to record, mix, and master audio on your laptop or iPad, good enough to stream.
